Monitoring Solutions is proud to offer a complete line of CEMS analyzers for upgrades and replacements. For both dilution and extraction systems, we offer analyzers for the most common CEMS gases including: NOx, SO2, CO, CO2, O2, THC, NH3, and more.

Let Monitoring Solutions help you upgrade your CEMS. We can help pick the best analyzer for your specific application. We offer analyzers from the following manufacturers:

Thermo Scientific  
Brand Gaus  
CAI  
Servomex

Other analyzers are available upon request (different gases and different manufacturers)

The Monitoring Solutions Advantage:

Why buy from us? You won’t pay any more buying an analyzer from us versus the manufacturer, and you’ll get a whole lot more:

- Engineering assistance to make sure you get the right analyzer for the right application
- Assistance with installation, start-up, and training
- A 24/7 Phone Support Contract for the first year at no cost to assist you as you get familiar with your new analyzer
- Complete after-sales support including both in-house and on-site repairs. Parts and consumables sales - stocked in our Indianapolis facility for quick turn-around.

APPLICATIONS
  > Extraction CEMS
  > Dilution CEMS
  > Process CEMS
  > Other Process Applications

FEATURES
  > Different Technologies for Different Gases: NOx, SO2, CO, CO2, O2, THC, NH3, and more
  > Chemiluminescence
  > Pulsed Fluorescence
  > NDIR
  > FTIR
  > FID
  > Zirconium Oxide

MONITORING SOLUTIONS
Complete source for all your Continuous Emissions Monitoring (CEMS) needs:

**Abbreviation Key**

- CO – Carbon Monoxide
- CO₂ – Carbon Dioxide
- CH₄ – Methane
- FID – Flame Ionization Detection
- FTIR - Fourier-transform infrared spectroscopy
- NDIR – Non-Dispersive Infrared
- NH₃ - Ammonia
- NO – Nitric Oxide
- N₂O – Nitrous Oxide
- NO₂ – Nitrogen Dioxide
- NOₓ – Oxides of Nitrogen
- O₂ - Oxygen
- SO₂ – Sulphur Dioxide
- THC – Total Hydrocarbons
